

Igniting Auto-passion

Dear Teams:

First, I would like to thank all for your energetic and enthusiastic participation in Baja SAEINDIA 2012. I still have vivid memories of those fun-filled 3 days at NaTrax, Pithampur. After this event, Organizing Committee (OC) requested you for the feedback about the event. Apart from this, we received ample feedback and suggestions from the teams, students, volunteers, judges, inspectors, Organizing Committee and Steering Committee. Due to limitation of the space and time, I am not able to touch on all the aspects of the feedback here. Rest assured, OC have received your positive and constructive feedback and working on it to improve and make next Baja event better than Baja SAEINDIA 2012.

Specifically, there were a lot of concerns raised by participating teams, faculties and scoring coordinator after the Baja SAEINDIA 2012 endurance race due to malfunctioning of transponder on some vehicles. Based on Baja SAEINDIA 2011 feedback, Baja SAEINDIA 2012 OC was well prepared with back-up actions. We added two backups particularly, first: manual counting and second: video recording of the vehicles completing the laps.

Organizing Committee decided to revise the scores based on multiple rounds of screening at various locations and third neutral party. There are around 10 teams directly affected because of these revisions. Fortunately, none of the award-winning teams was affected due to this revision. We are publishing these revised scores based on philosophy of "doing the things right and not what is convenient". I am sure that you will appreciate our view rather than easy way to throw bricks at us or criticize the entire process.

On another note, I would like to congratulate Niraml Matharu (Vice President – Mahindra2Wheelers) and Lalit Suryawanshi (General Manager, Regional Engineering, Cummins Turbo Technologies) for selection as Convener and Joint Convener of Baja SAEINDIA 2013. I am confident that Niraml and Lalit will take this event to new heights. Registration process has already started for Baja SAEINDIA 2013. I am sure that you will keep continuing your patronage towards Baja and provide all necessary support to your juniors to make them successful.

Last, I wish you a great success ahead considering many team members now being part of automotive and mechanical industry. I expect you to bear the torch and support Baja event from your respective industries.

Mahendra Kumbhar

Convener, Baja SAEINDIA 2012

P.S: Mails to this ID would not be replied. No queries will be answered regarding revision of the scores as lap counting is thoroughly checked and validated.

Annexure : Baja SAEINDIA 2012 modified result sheet.
